

NODECONF OSLO

OSLO, NORWAY — 04 JUNE 2016

A community conference for Node.js developers and hobbyists. The day after and at the same venue as the 5th Web Rebels. We expect our audience for NodeConf Oslo to be at 150–200.

PART OF THE NODECONF FAMILY

Node is used to build and power websites, robots, mobile apps, tooling, IoT-devices - you name it. NodeConf Oslo provides a forum for the Node.js community to get together and talk about how they're using Node - in Norway and internationally.

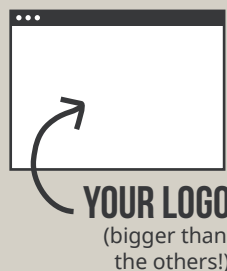

SPONSORSHIP PACKAGES

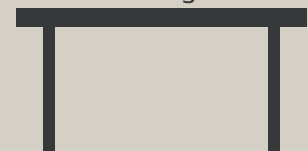

We have three different packages and hope one of them sounds just right for you. Special requests? Questions? We'd be happy to talk! Contact Richard Walker: nodeconfoslo@gmail.com
